How to create sub-folder in SD Card, using Java code

How to create sub-folder in SD Card, using Java code

If you want to create sub-folder in SD Card using Java code, you can use the mkdir() method of java.io.File class.

ex.

```
String newFolder = "/myFolder2";
String extStorageDirectory = Environment.getExternalStorageDirectory().toString();
File myNewFolder = new File(extStorageDirectory + newFolder);
```

Mobile Development
Bachelor's Degree – *Online*

 **FULL SAIL UNIVERSITY.** [LEARN MORE](#)

```
myNewFolder.mkdir();
```

And also, AndroidManifest.xml have to be modify to add permission of
"android.permission.WRITE_EXTERNAL_STORAGE"

```
<?xml version="1.0" encoding="utf-8"?>
<manifest xmlns:android="http://schemas.android.com/apk/res/android"
    package="com.exercise.AndroidNewFolder"
    android:versionCode="1"
    android:versionName="1.0">
    <application android:icon="@drawable/icon" android:label="@string/app_name">
        <activity android:name=".AndroidNewFolder"
            android:label="@string/app_name">
            <intent-filter>
                <action android:name="android.intent.action.MAIN" />
                <category android:name="android.intent.category.LAUNCHER" />
            </intent-filter>
        </activity>
    </application>
    <uses-sdk android:minSdkVersion="4" />
    <uses-permission android:name="android.permission.WRITE_EXTERNAL_STORAGE" />
</manifest>
```
